INVOICE

TERMS AND CONDITIONS OF SALES

1. Taxes - Buyer is responsible for the ultimate payment of all taxes which may be assessed or levied on or on account of materials sold hereunder to the Buyer. Prices are subject to change due to any Federal or state laws taxing raw or processed materials or governing the working hours or compensation of labor.

2. Packing and Loss or Damage in Transit - Materials will be packed for shipment in a manner suitable to the method of shipment specified by Buyer, or to the method selected by Seller in the absence of instructions. Risk of loss or damage to materials in transit is upon the Buyer.

3. Delivery - Shipment schedules are approximate and are based on conditions at the time of acceptance. Seller will make every effort to complete shipment as indicated, but assumes no responsibility or liability for loss or damage by reason of delay or inability to ship caused by acts of God, fire, floods, wars, embargoes, labor disputes, acts of sabotage, riots, accidents, delays of carriers, subcontractors or suppliers, voluntary or mandatory compliance with any governmental act, regulation or request, shortage of labor, materials or manufacturing facilities, or any other cause or causes beyond Seller's reasonable control. If, by reason of any of these things, Seller's supplies of the materials covered hereby are limited, Seller shall have the right to prorate the available supply in such manner as it, in its discretion, determines.

4. Partial Deliveries - Partial deliveries shall be accepted and paid for at contract prices on maturity of bills therefor. If any part of the material is not delivered by the Seller or is not in accordance with the order, the order for the remainder of the material and the Buyer's obligation thereunder shall not be affected thereby. The Seller may, at its option, replace any or all returned material within a reasonable time after it is finally determined that the returned goods are not in accordance with the contract; and in such event the Seller shall not be liable for any damages arising from the defective delivery or delay caused thereby.

5. Inspection on Arrival - The Buyer shall inspect the material immediately on its arrival and shall within five (5) days of its arrival give written notice to the Seller of any claim for shortage or that the material does not conform with the terms of the contract. If the Buyer shall fail to give such notice, the material shall be deemed to conform with the terms of the contract and the Buyer shall be bound to accept and pay for the material in accordance with the terms of the contract.

6. Warranty - Unless otherwise indicated, material to be furnished by Seller is to be within Seller's size, gauge, temper and finish limits as manufactured and subject to Seller's standard tolerances for variations. Seller warrants to the Buyer all material of its manufacture to be furnished hereunder to be free from defects in material and workmanship and to meet applicable specifications. In

discharge of this warranty Seller agrees to repair or replace, with reasonable promptness, any material of its manufacture which under proper and normal use shall, within twelve (12) months after delivery to the Buyer, prove to be defective due to faulty material or poor workmanship and which is returned, with transportation charges prepaid, to Seller's factory, provided, however, that the Buyer shall have reasonably inspected all material as received and, within five (5) days of receipt of shipment, notified Seller of any apparent defects discovered. In the case of standard parts and accessories to be furnished hereunder but not of Seller's manufacture, Seller's liability hereunder is limited to such adjustment as the manufacturer thereof makes with it. The foregoing warranty and remedy are exclusive and Seller assumes no liability for general or consequential damages claimed to arise in connection with the installation or use of material to be furnished hereunder, and the Buyer by the acceptance of the material to be furnished hereunder will assume all liability for any damage which may result from its use or misuse by the Buyer, his or its employees or by others.

7. Indemnity - The Buyer will protect and indemnify the Seller against all claims for damages or profits arising from infringement of patents, designs, copyrights or trade-marks, with respect to all goods manufactured, either in whole or part, to the Buyer's specifications.

8. Dies, Tools or Fixtures - Invoices covering dies, tools and fixtures, whether of a mechanical, electrical, electronic or optical nature, do not convey any title or interest to the Buyer. Only part of such cost is ordinarily charged the Buyer, while the Seller assumes the remainder and provides engineering time and experience in their design. For these reasons, dies, tools and fixtures remain the property of the Seller and are not removable from Seller's factory.

9. Modifications - No deletion, amendment or addition to the terms hereof shall be affected by the acceptance or acknowledgment of a purchase order or other forms unless expressly agreed to in writing signed by an authorized representative of the Seller. All orders are subject to acceptance or rejection by the main office at Norwalk, Connecticut, and written acknowledgment will be made of all orders accepted.

10. Applicable Laws - This contract shall be construed in accordance with the laws of the State of Connecticut.

11. Authority To Export - This contract is subject to issuance of an export license by the United States Government for export of the ordered items, and to the Buyer providing Seller with relevant import certificate, or any other document necessary to secure such export license and/or to permit the import of such goods into the country of destination.
